PROFESSIONAL SUMMARY

Security-focused Junior Full-Stack Developer with a foundational background in Cisco Network Engineering [cite: 3]. Proven track record of identifying critical web vulnerabilities (XSS) and managing internal security threats for tech firms in the MENA region [cite: 3]. Versatile in both .NET and Python ecosystems, with experience building secure, data-driven applications [cite: 3]. Native Arabic speaker dedicated to supporting digital transformation goals in the Gulf market [cite: 3].

TECHNICAL SKILLS

Web Frameworks: Django, Flask, ASP.NET Core, Bootstrap [cite: 3]
Languages: Python, C# (Foundational), JavaScript (ES6+), SQL [cite: 3]
Security & Forensics: XSS Discovery, Insider Threat Detection, Vulnerability Disclosure [cite: 3]
Networking (Cisco): CCNA v7 (Routing, Switching, Wireless), Network Hardening [cite: 3]
Databases & Tools: MongoDB, SQL Server, Git, Docker, AI Tools (Copilot, ChatGPT) [cite: 3]
Languages: Arabic (Native), English (Fluent), French (Intermediate) [cite: 3]

PROFESSIONAL EXPERIENCE

Independent Security Researcher & Consultant

2023 – Present

Serotonin (UAE Tech Firm)

- **Vulnerability Disclosure:** Identified and disclosed a Cross-Site Scripting (XSS) vulnerability on the production environment, preventing potential session hijacking [cite: 3].
- **Insider Threat Investigation:** Conducted a digital forensic audit to identify an internal data leak involving corporate deals, ensuring business integrity [cite: 3].
- **Infrastructure Hardening:** Audited WordPress and Hostinger server configurations to patch security gaps and implement Content Security Policies (CSP) [cite: 3].
- **Security Awareness:** Developed and delivered a "Human Firewall" training plan for staff, focusing on phishing defense and social engineering awareness [cite: 3].

KEY PROJECTS

Full-Stack Portfolio Architecture (C# / .NET)

- Engineered a professional portfolio from scratch using ASP.NET Core and Vanilla JavaScript to master the full request-response lifecycle and secure backend logic [cite: 3].
- Designed a relational schema in SQL Server with secure authentication protocols [cite: 3].

Weather Intelligence Web App (Python / Django)

- Developed a real-time weather monitoring application using the Django framework and Python [cite: 3].
- Integrated external Weather APIs to fetch and display live meteorological data with a responsive, user-friendly interface [cite: 3].
- Implemented server-side logic to handle asynchronous data requests and ensure efficient API consumption [cite: 3].

Data-Driven Web Applications (NoSQL)

- Developed backend services focusing on rapid prototyping and secure API development using Flask [cite: 3].

- Implemented NoSQL data solutions using MongoDB for flexible, high-performance data storage [cite: 3].

EDUCATION & CERTIFICATIONS

INSFP Blida — Cisco Networking Academy

2022

- Cisco CCNA v7 (ITN, SRWE) and Cisco Security & Basic Cybersecurity [cite: 3].
